**ISSUE:**

Approve a resolution authorizing the purchase of desktop and laptop computers for use by the Police Department.

**SYNOPSIS:**

The Police Department has a need for desktop and laptop computers. The replacements will be financed through the HP Master Lease Purchase Agreement which was approved in 2006 under Resolution No. 06-04.

**BACKGROUND:**

The desktop and laptop computers procured through this program will be covered by a "Total Care" package for each computer which will cover the costs of repairs needed during the lease agreement. Each computer will be leased for a period of four years at which point the City will be able to purchase each computer for one dollar. Total cost over the four year period will not exceed \$91,000.00, with four annual payments totaling \$22,700.00.

Formal bidding was not required because the vendor, Valcom, holds a contract with the State of Utah.

**RECOMMENDATION:**

City Staff recommends approval of the Resolution.
